

Simplify and Secure Your Distributed Network

Businesses Thrive on Cybera

If you're running a distributed enterprise, one of your greatest challenges is ensuring a consistently high-quality customer experience across all of your locations. But how do you deliver new customer-engaging services without compromising security or profitability?

The CyberaONE™ Platform empowers you to rapidly deploy, secure, and optimize the leading-edge technologies and services your customers demand. Purpose-built for highly distributed businesses, this cloud-based managed application network and security services platform provides everything you need to support point-of-sale, loyalty, mobile payment, tank monitoring, and digital signage applications.

To help you get there, Cybera focuses on three key areas:

Innovative Technology

As a leading innovator in network edge technologies with the only cloud-based solution that's purpose-built for highly distributed businesses, Cybera is widely known for its advanced technology:

- IDC has recognized Cybera as an innovator in the software-defined WAN (SD-WAN) market.
- Gartner has recognized Cybera as the #1 provider of WAN Edge solutions.
- Cybera has won numerous industry awards for its products and support.

Customer-Proven Solutions

Cybera technology is customer-proven at more than 90,000 locations around the world—including the world's largest SD-WAN deployment with over 16,000 locations:

- Petro and C-store retailers, including world-renowned brands such as Shell and ExxonMobil.
- Quick service restaurants, featuring brand owners and franchisees like Kahala Brands and Arby's.
- Specialty retailers, including forward-thinking companies such as Samsonite and Rocky Mountain Chocolate Factory.
